

Intro Script

Please join me in welcoming Dr Lucy Rogers MBE to the stage. Lucy is a Chartered Engineer and Fellow of the Royal Academy of Engineering, whose innovative work spans from designing animatronic dinosaurs to carbon-negative technologies.

You may recognize her as a judge from BBC's Robot Wars, or as the author of 'Up: A Scientist's Guide to the Magic Above Us'. But beyond her technical achievements, Lucy is passionate about using engineering to create sustainable solutions and protect the natural world we all share.

She's been recognized with an MBE for her services to engineering and commended by the Royal Academy of Engineering for making engineering accessible to everyone.

With her curiosity, clarity and creativity, please give a warm welcome to Dr Lucy Rogers!
